## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an organic EL display and method thereof having, inter alia, each of said light emitting parts further including dielectric films including a source-drain insulating film for avoiding a short circuit, a protective insulating film for protecting said organic semiconductor film, and a pixel insulating film for covering an edge of either one of said electrodes of said organic EL device; and at least two out of said dielectric films being made of the same dielectric material (claims 1 and 7). The remaining claims 2-6 and 8 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ohtani, Patent No. 6,277,679; Ohtani, Patent No. 6,853,004; Hayashi et al., Pub. No. 2003/0047736; Yamazaki et al., Pub. No. 2003/0075733.

None of the above documents discloses the light emitting parts, as recited.
